EXPERIENCE

Freelance Graphic Designer

Colombo, Sri Lanka.

TYCHE LK
2021

Designing logo and branding for a digital marketing and software development company. I designed social media posts and printed material as well (letterheads, visiting cards, invoices and quotation templates.)

Karting Demons
2022

Designing logo and branding for a go karting event with creating visual graphics for social media posting and strategizing social media campaign.

Pawura
2022

Created logo and social media posts, filmed and did video editing to post on YouTube for Pawura which is a non-government organization.

Graphic Designer | Pace Publishers

March 2020 - August 2021 | Colombo, Sri Lanka

Pace Publisher is a graphic designing firm mainly designing publications and display banners. Worked as a graphic designer creating many book covers for main stream publications, government publications, and printed advertisements.

Graphic Designer | Travel Lanka

July 2018 - March 2020 | Colombo, Sri Lanka

Travel Lanka guide features articles on Sri Lanka's culture, heritage, people, and nature and carries in-depth information on custom formalities and where to go, what to see, what to do, and accommodation listings of places to stay. Worked as a graphic designer in publishing the Travel Lanka magazine.

PROJECTS

Research and Prototyping Project Management Application

July 2023 - Nov 2023 | Curtin University

Did research and developed wireframes and prototypes for a project management application for Sirmavo Bandaranaike Vidyalyaya Old Girls' association. The application is able to track all records of donations and manage projects done by the organization.

PillPal - UI/UX Design Research and Design

Mar 2023 - Jun 2023 | Curtin University

Research and UI design using Figma for a mobile app named PillPal that helps patients take their medication on time, track their progress, and communicate with medical professionals.

EatsCMB - Mobile Application Development

July 2022 - Nov 2022 | Curtin University

Designed and developed a food delivery mobile application named EatsCMB using java on Android Studio. The prototypes were made using Adobe XD and later used to develop the application.
